DETAILED ACTION

Election/Restrictions

1. Applicant's election of Group I in the reply filed on Dec 1, 2004 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. Claim 66 is withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on Dec 1, 2004. Claim 66 is withdrawn since the applicant elects to prosecute Group I, claims 1-9 and 52-65, which reads on gear casing/box/housing. Claim 66 reads on the gear mechanisms within the gear box which is classified in class 74, subclass 63.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Net Pejic on Mar 30, 2005.

The application has been amended as follows:

Canceled claim 66.

4. The following is an examiner's statement of reasons for allowance:

Neither prior art of record nor references teach a gear casing that includes a cover that is disposed in a first position to allow access to a first mechanical part therein and closing the access to a second mechanical part and in a second position to allow access to the second mechanical part and closing the access to the first mechanical part. Moreover, the prior art made of record below fail to suggest any reason for modifying any prior art submitted under IDS.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Covers that open one area and close other area.

Iverson, U.S. Patent 1,275,695

Hannaman et al., U.S. Patent 166,102

Severson, U.S. Patent 2,958,438

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
